□. Bayview Seniors Housing and Golf Course

From Joseph and Linda Fabbro
25 Coutts Crescent, Collaroy. 2097

Dear Northern Beaches Council Committee

We have been members of the Bayview Golf Course for almost 20 years and we are in favour of the Bayview Seniors Housing Development proposal on the Bayview Golf course.

We believe this project is environmentally friendly as the buildings proposed have been designed accordingly to provide our suburb with eco sustainability accomodation for our growing population and also additional senior citizens accomodation. This project is also providing additional tree planting for our beautiful suburb and it will also improved water management flood mitigation which has been a problem for many years. I also believe it will improve community and upgrade our sporting facilities.

We believe this project is important for the growth and development of our golf course, Bayview as a suburbs and this will also further the quality of life of our facilities to our Northern Beaches residence.

Kind Regards

Joseph Fabbro and Linda Fabbro
