**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

There is a pressing need at this time to show more care for native animals. As we continue to encroach ever more on natural habitat, animals suffer. Australia is rare in the world in still possessing significant undisturbed nature and it is important to maintain this. There will be other places where, preferably, smaller residential buildings can be developed, without this impact on wildlife.

Thank you for considering this matter.

Yours sincerely, Quentin Dresser.
