**RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW
2099**

I object to this DA as it will have a negative impact on the very precious biodiversity in this area. The council and other groups have spent a lot of money and time trying to nurture and rebuild the flora and fauna of this area, and to put in a mobile tower and associated infrastructure is in direct opposition to trying to rebuild this natural area. The lagoon and surrounding areas already have a huge human footprint we need to focus more on the natural habitat of birds and animals and insects to help this area get back to its natural state. It makes no sense to allow a tower with its signals into an area that the council is already spending lots of money trying to protect as a natural environment. The council should be protecting these areas not selling them off to big corporations. The eyesore of the mobile towers at Mary MacKillop park was a disgrace and the council should learn from these decisions.
