RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

To whom it may concern.

News of amended plans for apartment buildings in a high priority wildlife corridor have come to my attention and I am writing to you to express my grave and heart felt concerns.

These plans were already once rejected and need to stay this way. This land is rich in unique wildlife and is highly bio-diverse and the thought of destroying it all in the name of apartments leaves me in despair.

Australia as a country has an atrocious track-record in terms of environmental protection with rampant deforestation and one of the highest rates of extinction in the world, we can't afford to be careless with the little remaining pockets of nature.

Please vote against this development and put this issue to rest for good, not just for us, but for generations to come, and give our children a place where they can see Australian nature and wildlife at its best.

Kind regards,

Odin
