**RE: DA2019/1119 - 4 / 0 Bennett Street CURL CURL NSW 2096**

The proposal by Cambridge Markets and Harbord Bowling Club to run a market at the Club is exciting news for the local community. It is also opportune when you consider the recent closure of other markets in the area and will therefore ensure Northern Beaches locals have access to this time of facility.

I look forward to being able to purchase organic produce and other local goods which are otherwise hard to source on the Beaches.

The Club has mitigated the concerns raised by some locals, particularly in relation to parking and live music. Additional parking will be available at the neighbouring Freshwater Campus and also on Abbott Rd, Curl Curl. The music will be of an acoustic style and will not create unnecessary noise pollution.

Harbord Bowling Club has always been a considerate neighbour and more importantly, a supporter of many community organisations over many years.

This is a well thought out proposal and, if approved, it will provide an asset to the local and wider community.
