RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Dear Sir/Madam, I am writing to object to DA 1274/2017. I believe it is unsatisfactory and negligent to allow such density of buildings in the high priority wildlife corridor in Bayview. Living in Avalon, I have seen how quickly the koala population here died due to construction in the wildlife corridor that linked the two parks which contained the gums koalas liked. Once they are gone, they're gone . Please protect this priceless wildlife corridor and the flora and fauna that supports our native animals.
