RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

Please stop the South Narrabeen sea wall!!

This type of construction has been proven to cause more harm than many other types of erosion prevention strategies. I fear that we will end up with a beach that is divided and inaccessible along the wall.

I do not feel that this type of construction was communicated to us during consultation.

I feel very let down by NBC.

Stop construction now!
