RE: DA2023/0720 - 0 Vista Avenue BALGOWLAH HEIGHTS NSW 2093

For working families, the addition of lights at the tennis club would make this a much more usable utility. It's an important centre for the community in terms of mental and physical well being. At present, the club is unusable for 5-6 months a year, 5 days per week, given work commitments.

I fully support the proposal.

Thanks

Richard
