WASTE MANAGEMENT PLAN

94 Bantry Bay Road Frenchs Forest NSW 2086

CONSTRUCTION WASTE

The following measures will be considered during the construction stage:

- The materials are all prefabricated and an assessment is done on the quantity of materials required to reduce the waste of materials.
- Reusing formwork;
- limiting unnecessary excavation;
- Careful source separation of off-cuts to facilitate re-use, resale or efficient recycling; and

HANDLING

When handling waste on-site, the system (including bin placement, volumes, and access) shall be designed with the following factors in mind:

- Safety (highest priority);
- Ease of use; and
- Aesthetics.

DOMESTIC WASTE

The existing methods of disposal of residential waste will remain the same as the standards set out for the local residents.

DEMOLITION WASTE

There is no demolition required before proposal can commence.

SKIP BIN

All leftover waste will be disposed of via a skip bin.

NORTHERN BEACHES COUNCIL

Waste Management Plan

This plan is to be completed
in accordance with Council's

Waste Management Guidelines

Effective Date: 1 November 2016

TABLE OF CONTENTS

Purpose of the Waste Management Plan	2
Structure of the Waste Management Plan.....	2
Applicant and Project Details	3
Section 1 – Demolition	4
Section 2 – Construction	6
Section 3 – On-going waste management for one or two dwellings.....	8
Section 4 – On-going waste management for three or more dwellings.....	9
Section 5 – On-going waste management for non-residential developments	10
Section 6 – Private roadway developments.....	11

Purpose of the Waste Management Plan

This *Waste Management Plan (WMP)* will detail the arrangements for waste management during all stages of development and occupation.

The WMP must be completed in accordance with the Waste Management Guidelines (Guidelines).

A completed WMP is a mandatory requirement for any Development Application (DA) for which Council is the Consent Authority. DAs that are submitted without a completed WMP will be rejected or refused by Council.

Structure of the Waste Management Plan

All applicants are required to complete the 'Applicant and Project Details' part of the WMP and include it with the relevant Sections that apply to their proposed development.

The WMP is divided into Sections and applicants are only required to complete the relevant Sections in accordance with the Guidelines. The table below identifies which Sections are relevant to which development types.

For example, if the proposed development was to include demolition of an existing structure and construction of a single dwelling, the relevant Sections would be Sections 1, 2 and 3.

Section	Development Type [^]
Section 1 – Demolition	All
Section 2 – Construction	All
Section 3 – On-going waste management for one or two dwellings	One or two dwelling developments Mixed-use developments containing one or two dwellings
Section 4 – On-going waste management for three or more dwellings	Three or more dwelling developments Mixed-use developments containing three or more dwellings
Section 5 – On-going waste management for non-residential and mixed use developments	Commercial developments Industrial developments Mixed-use developments
Section 6 – Private roadway developments	Private roadways

[^]Note: the definitions of the development types are provided in Section vi of the Introduction to the Guidelines

Property and Project Details

Complete this page and the relevant Sections that apply to your proposed development.

Property Details
