Officer comments

The development site adjoins Pittwater waterway that is located downslope of the property.

All development works must ensure that surface sediment runoff and/or erosion is controlled, managed and contained within the site boundaries and prevented from travelling across the boundary and into the waterway. No physical encroachments over the site boundaries are permitted, and structures and built elements are not permitted beyond the site boundaries.

The development is not detrimental to the landscape or waterway character, and as such Parks Reserves and Foreshores raise no concerns with the development proposal.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
