Subject: Submission - Application Number: DA2023/0987 - Philip Citowicki

Dear Council,

I want to make a submission in relation to DA2023/0987.

I wish to underscore my full support as a young (under 35 year old) person living and married in our beautiful Manly community. Council should ensure that it backs in the development and supports its swift construction. I hope it is one of many near future developments that will work towards alleviating the housing supply crisis gripping our state - that our community is particularly faced by as well.

The development appears to be consistent with our community standards and realistically priced.

The addition of car parking space is something that should warrant greater support as well.

I hope to see updates soon and welcome any questions the council has. I can be contacted by this email or phone number below.

Regards,

Philip Citowicki
Pittwater Road Resident
