Officer comments

Council's Biodiversity Referrals team have assessed the Development Application for compliance against the following applicable biodiversity related provisions:

- SEPP (Resilience and Hazards) 2021 cl. 2.10 Development within the Coastal Environment Area

The Development Application seeks consent for the construction of a garden shed.

No locally-native or prescribed vegetation appears to exist within the property. As the application does not require the removal of prescribed trees or vegetation nor is it likely to impact on nearby biodiversity values, the Bushland and Biodiversity referral team find the application to be consistent against relevant environmental controls, subject to conditions.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
