The General Manager
Northern Beaches Council
PO Box 882
Mona Vale NSW 1660

Dear Sir/Madam,

Re:

Shop 3 Warriewood Square (12 Jacksons Road),
Warriewood NSW 2102

Complying Development Certificate No.
Decision made under:

170056
Part 5 - Commercial & Industrial Code

Greenfield Certifiers Pty Ltd has issued a Complying Development Certificate under Part4A of the *Environmental Planning and Assessment Act 1979* for the above premises.

Please find enclosed the following documentation:

- Complying Development Certificate No. 170056
- Copy of the application for the Complying Development Certificate.
- Disc containing documentation used to determine the application for the Complying Development Certificate as detailed in Schedule 1 of the Certificate.
- Cheque for Council's registration fee.

Should you need to discuss any issues, please do not hesitate to contact the Accredited Building Surveyor George Watts.

Yours sincerely,

George Watts
Director - Grade 1 Accredited Certifier
Greenfield Certifiers Pty Ltd

PRVC \$36.00 REC: 408454 07/03/2017

COUNCIL COPY

COMPLYING DEVELOPMENT CERTIFICATE 170056

Issued under Part 4 of the Environmental Planning and Assessment Act 1979 Section 85A(6)

APPLICANT DETAILS

Applicant: The Teeth Temple Pty Ltd,
C/- Levitch Design Australia
Address: Po Box 6820, Baulkham Hills BC NSW 2153
Phone: 1300 11 22 11
Fax:

COMPLYING DEVELOPMENT CONSENTS

Consent Authority / Local Government Area: Northern Beaches Council
Relevant Planning Instrument Decision Made Under: Part 5 - Commercial & Industrial Code
Date of Determination: 21/02/2017
Complying Development Certificate Number: 170056

Lapse date: Section 86A of the Environmental Planning and Assessment Act 1979 stipulates that this certificate will lapse within 5 years if not physically commenced on the stated land to which this certificate applies. Section 81A of the Act is applicable.

PROPOSAL

Address of Development: Shop 3 Warriewood Square (12 Jacksons Road), Warriewood NSW 2102
Lot/DP: Lot 220 DP 1159968
Land Use Zone: B2 Local Centre
Building Classification/s: 6, 7a
Scope of Building Works Covered by this Certificate: Fitout & Use as a Dental Surgery
Value of Construction (incl. GST): \$60,000.00
Plans and Specifications approved: Refer Schedule 1: Approved Plans and Specifications
Fire Safety Schedule: See Fire Safety Schedule attached
Conditions: See Conditions attached
Exclusions: Nil
Critical stage inspections: See attached Notice

CERTIFYING AUTHORITY

Accredited Certifier: George Watts
Accreditation Body and Registration Number: Building Professionals Board
BPB0434

I, George Watts, as the certifying authority, certify that the proposed development is a complying development, and, if carried out as specified in this certificate, will comply with all development standards applicable to the development and with the requirements prescribed by the Environmental Planning and Assessment Regulation 2000 concerning the issue of this certificate. The issue of this certificate has been endorsed on the documents listed in Schedule 1 which were provided in connection with the application for this certificate.

Dated: 21/02/2017

George Watts

N.B. Prior to the commencement of work S81A (2) (b) and (c) of the Environment Planning and Assessment Act 1979 must be satisfied.

CERTIFICATION DETAILS

Certifying Authority:	George Watts
Accreditation Body:	Building Professionals Board BPB0434

I, George Watts of Greenfield Certifiers Pty Ltd, located at PO Box 6160, Baulkham Hills BC NSW 2153, acting as the principal certifying authority, hereby give notice in accordance with Section 81A(2)(b1)(ii) of the Environmental Planning and Assessment Act 1979 to the person having the benefit of the development consent that the mandatory critical stage inspections identified in Schedule 1 & Schedule 2 are to be carried out in respect of the building work.

The applicant, being the person having benefit of the development consent, is required under Section 81(A)(b2)(ii) of the Environmental Planning and Assessment Act 1979 to notify the principal contractor (if not an owner-builder) of the applicable mandatory critical stage inspections specified under this notice.

To allow a principal certifying authority or another certifying authority time to carry out mandatory critical stage inspections, the principal contractor for the building site, or the owner builder, must notify the principal certifying authority at least 48 hours before building work is commenced at the site if a mandatory critical stage inspection is required before the commencement of the work in accordance with Clause 163 of the Environmental Planning & Assessment Regulation 2000.

Failure to request a mandatory critical stage inspection will prohibit the principal certifying authority under Section 109E(3)(d) of the Environmental Planning and Assessment Act 1979 to issue an occupation certificate.

Dated: 21/02/2017

George Watts
Director - Grade 1 Accredited Certifier

No.	Critical Stage Inspection	Inspector
1.	After the building work has been completed & prior to any Occupation Certificate being issued in relation to the building	Principal Certifying Authority

ENVIRONMENTAL PLANNING AND ASSESSMENT REGULATION 2000-CONDITION

136A COMPLIANCE WITH BUILDING CODE OF AUSTRALIA AND INSURANCE REQUIREMENTS UNDER THE HOME BUILDING ACT 1989

(cf clauses 78 and 78A of EP&A Regulation 1994)

- (1) A complying development certificate for development that involves any building work must be issued subject to the following conditions:
 - (a) that the work must be carried out in accordance with the requirements of the *Building Code of Australia*,
 - (b) in the case of residential building work for which the *Home Building Act 1989* requires there to be a contract of insurance in force in accordance with Part 6 of that Act, that such a contract of insurance must be entered into and be in force before any building work authorised to be carried out by the certificate commences.
- (1A) A complying development certificate for a temporary structure that is used as an entertainment venue must be issued subject to the condition that the temporary structure must comply with Part B1 and NSW Part H102 of Volume One of the *Building Code of Australia* (as in force on the date the application for the relevant complying development certificate is made).
- (2) This clause does not limit any other conditions to which a complying development certificate may be subject, as referred to in section 85A (6) (a) of the Act.
- (3) This clause does not apply:
 - (a) to the extent to which an exemption is in force under clause 187 or 188, subject to the terms of any condition or requirement referred to in clause 187 (6) or 188 (4), or
 - (b) to the erection of a temporary building, other than a temporary structure that is used as an entertainment venue.
- (4) In this clause, a reference to the *Building Code of Australia* is a reference to that Code as in force on the date the application for the relevant complying development certificate is made.

Note: There are no relevant provisions in the *Building Code of Australia* in respect of temporary structures that are not entertainment venues.

136AB NOTICE TO NEIGHBOURS

- (1) A complying development certificate for development on land that is not in a residential release area and that involves:
 - (a) a new building, or
 - (b) an addition to an existing building, or
 - (c) the demolition of a building,must be issued subject to a condition that the person having the benefit of the complying development certificate must give at least 7 days' notice in writing of the person's intention to commence the work authorised by the certificate to the occupier of each dwelling that is located on a lot that has a boundary within 20 metres of the boundary of the lot on which the work is to be carried out.
- (2) A complying development certificate for development on land that is in a residential release area and that involves:
 - (a) a new building, or
 - (b) an addition to an existing building, or
 - (c) the demolition of a building,

must be issued subject to a condition that the person having the benefit of the complying development certificate must give at least 2 days' notice in writing of the person's intention to commence the work authorised by the certificate to the occupier of each dwelling that is located on a lot that has a boundary within 20 metres of the boundary of the lot on which the work is to be carried out.

(3) In this clause:

residential release area means any land within:

- (a) an urban release area identified within a local environmental plan that has been prepared under the *Standard Instrument (Local Environmental Plans) Order 2006* and made as provided by section 33A (2) of the Act, or
- (b) a land release area identified under the *Eurobodalla Local Environmental Plan 2012*, or
- (c) any land subject to *State Environmental Planning Policy (Sydney Region Growth Centres) 2006*, or
- (d) any area included in Parts 6, 26, 27, 28 and 29 of Schedule 3 to *State Environmental Planning Policy (Major Development) 2005*.

136B ERECTION OF SIGNS

- (1) A complying development certificate for development that involves any building work, subdivision work or demolition work must be issued subject to a condition that the requirements of subclauses (2) and (3) are complied with.
- (2) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - (a) showing the name, address and telephone number of the principal certifying authority for the work, and
 - (b) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - (c) stating that unauthorised entry to the site is prohibited.
- (3) Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- (4) This clause does not apply in relation to building work, subdivision work or demolition work that is carried out inside an existing building, that does not affect the external walls of the building.
- (5) This clause does not apply in relation to Crown building work that is certified, in accordance with section 109R of the Act, to comply with the technical provisions of the State's building laws.
- (6) This clause applies to a complying development certificate issued before 1 July 2004 only if the building work, subdivision work or demolition work involved had not been commenced by that date.

Note: Principal certifying authorities and principal contractors must also ensure that signs required by this clause are erected and maintained (see clause 227A which currently imposes a maximum penalty of \$1,100).

136C NOTIFICATION OF HOME BUILDING ACT 1989 REQUIREMENTS

- (1) A complying development certificate for development that involves any residential building work within the meaning of the *Home Building Act 1989* must be issued subject to a condition that the work is carried out in accordance with the requirements of this clause.
- (2) Residential building work within the meaning of the *Home Building Act 1989* must not be carried out unless the principal certifying authority for the development to which the work relates (not being the council) has given the council written notice of the following information:

- (a) in the case of work for which a principal contractor is required to be appointed:
 - (i) the name and licence number of the principal contractor, and
 - (ii) the name of the insurer by which the work is insured under Part 6 of that Act,
 - (b) in the case of work to be done by an owner-builder:
 - (i) the name of the owner-builder, and
 - (ii) if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.
- (3) If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under subclause (2) becomes out of date, further work must not be carried out unless the principal certifying authority for the development to which the work relates (not being the council) has given the council written notice of the updated information.
- (4) This clause does not apply in relation to Crown building work that is certified, in accordance with section 109R of the Act, to comply with the technical provisions of the State's building laws.

136D FULFILMENT OF BASIX COMMITMENTS

- (1) This clause applies to the following development:
- (a) BASIX affected development,
 - (b) any BASIX optional development in relation to which a person has made an application for a complying development certificate that has been accompanied by a BASIX certificate or BASIX certificates (despite there being no obligation under clause 4A of Schedule 1 for it to be so accompanied).
- (2) A complying development certificate for development to which this clause applies must be issued subject to a condition that the commitments listed in each relevant BASIX certificate for the development must be fulfilled.

136E DEVELOPMENT INVOLVING BONDED ASBESTOS MATERIAL AND FRIABLE ASBESTOS MATERIAL

- (1) A complying development certificate for development that involves building work or demolition work must be issued subject to the following conditions:
- (a) work involving bonded asbestos removal work (of an area of more than 10 square metres) or friable asbestos removal work must be undertaken by a person who carries on a business of such removal work in accordance with a licence under clause 458 of the *Work Health and Safety Regulation 2011*,
 - (b) the person having the benefit of the complying development certificate must provide the principal certifying authority with a copy of a signed contract with such a person before any development pursuant to the complying development certificate commences,
 - (c) any such contract must indicate whether any bonded asbestos material or friable asbestos material will be removed, and if so, must specify the landfill site (that may lawfully receive asbestos) to which the bonded asbestos material or friable asbestos material is to be delivered,
 - (d) if the contract indicates that bonded asbestos material or friable asbestos material will be removed to a specified landfill site, the person having the benefit of the complying development certificate must give the principal certifying authority a copy of a receipt from the operator of the landfill site stating that all the asbestos material referred to in the contract has been received by the operator.
- (2) This clause applies only to a complying development certificate issued after the commencement of this clause.
- (3) In this clause,

"bonded asbestos material",

"bonded asbestos removal work",

"friable asbestos material" and

"friable asbestos removal work" have the same meanings as in clause 317 of the *Occupational Health and Safety Regulation 2001*.

Note 1: Under clause 317 removal work refers to work in which the bonded asbestos material or friable asbestos material is removed, repaired or disturbed.

Note 2: The effect of subclause (1) (a) is that the development will be a workplace to which the *Occupational Health and Safety Regulation 2001* applies while removal work involving bonded asbestos material or friable asbestos material is being undertaken.

Note 3: Information on the removal and disposal of asbestos to landfill sites licensed to accept this waste is available from the Department of Environment, Climate Change and Water.

Note 4: Demolition undertaken in relation to complying development under the *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* must be carried out in accordance with Australian Standard AS 2601—2001, *Demolition of structures*.

136H CONDITION RELATING TO SHORING AND ADEQUACY OF ADJOINING PROPERTY

- (1) A complying development certificate for development must be issued subject to a condition that if the development involves an excavation that extends below the level of the base of the footings of a building, structure or work (including any structure or work within a road or rail corridor) on adjoining land, the person having the benefit of the certificate must at the person's own expense:
 - (a) protect and support the building, structure or work from possible damage from the excavation, and
 - (b) where necessary, underpin the building, structure or work to prevent any such damage.
- (2) The condition referred to in subclause (1) does not apply if the person having the benefit of the complying development certificate owns the adjoining land or the owner of the adjoining land has given consent in writing to that condition not applying.

136I TRAFFIC GENERATING DEVELOPMENT

If an application for a complying development certificate is required to be accompanied by a certificate of Roads and Maritime Services as referred to in clause 4 (1) (k) of Schedule 1, the complying development certificate must be issued subject to a condition that any requirements specified in the certificate of Roads and Maritime Services must be complied with.

136J DEVELOPMENT ON CONTAMINATED LAND

- (1) If an application for a complying development certificate is required to be accompanied by a statement of a qualified person as referred to in clause 4 (1) (l) of Schedule 1, the complying development certificate must be issued subject to a condition that any requirements specified in the statement must be complied with.
- (2) Subclause (1) does not apply to complying development carried out under the complying development provisions of *State Environmental Planning Policy (Port Botany and Port Kembla) 2013* in the Lease Area within the meaning of clause 4 of that Policy.

136K WHEN COMPLYING DEVELOPMENT CERTIFICATES MUST BE SUBJECT TO SECTION 85A (9) CONDITION

- (1) This clause applies if a council's contributions plan provides for the payment of a monetary section 94 contribution or section 94A levy in relation to development for a particular purpose (whether or not it is classed as complying development under the contributions plan).
- (2) The certifying authority must issue the relevant complying development certificate authorising development for that purpose subject to a condition requiring payment of such contribution or levy, as required by section 85A (9) of the Act.
- (3) Subclause (2) applies despite any provision to the contrary in the council's contributions plan.

136L CONTRIBUTIONS AND LEVIES PAYABLE UNDER SECTION 85A (9) MUST BE PAID BEFORE WORK COMMENCES

- (1) A complying development certificate issued subject to a condition required by section 85A (9) of the Act must be issued subject to a condition that the contribution or levy must be paid before any work authorised by the certificate commences.
- (2) Subclause (1) applies despite any provision to the contrary in the council's contributions plan.

136M CONDITION RELATING TO PAYMENT OF SECURITY

- (1) This clause applies to a complying development certificate authorising the carrying out of development if:
 - (a) the development is demolition of a work or building, erection of a new building or an addition to an existing building and the estimated cost of the development (as specified in the application for the certificate) is \$25,000 or more, and
 - (b) the development is to be carried out on land adjacent to a public road, and
 - (c) at the time the application for the certificate is made, there is specified on the website of the council for the area in which the development is to be carried out an amount of security determined by the council that must be paid in relation to:
 - (i) development of the same type or description, or
 - (ii) development carried out in the same circumstances, or
 - (iii) development carried out on land of the same size or description.
- (2) A complying development certificate to which this clause applies must be issued subject to a condition that the amount of security referred to in subclause (1) is to be provided, in accordance with this clause, to the council before any building work or subdivision work authorised by the certificate commences.
- (3) The security may be provided, at the applicant's choice, by way of:
 - (a) deposit with the council, or
 - (b) a guarantee satisfactory to the council.
- (4) The funds realised from a security may be paid out to meet the cost of making good any damage caused to any property of the council as a consequence of doing anything (or not doing anything) authorised or required by the complying development certificate, including the cost of any inspection to determine whether damage has been caused.
- (5) Any balance of the funds realised from a security remaining after meeting the costs referred to in subclause (4) is to be refunded to, or at the direction of, the person who provided the security.

136N PRINCIPAL CERTIFYING AUTHORITY TO BE SATISFIED THAT PRECONDITIONS MET BEFORE COMMENCEMENT OF WORK

- (1) This clause applies to building work or subdivision work that is the subject of a complying development certificate.
- (2) A principal certifying authority for building work or subdivision work to be carried out on a site, and over which the principal certifying authority has control, is required to be satisfied that any preconditions in relation to the work and required to be met before the work commences have been met before the work commences.

STATE ENVIRONMENTAL PLANNING POLICY (EXEMPT AND COMPLYING DEVELOPMENT CODES) 2008

SCHEDULE 8 - CONDITIONS APPLYING TO COMPLYING DEVELOPMENT CERTIFICATES UNDER THE COMMERCIAL AND INDUSTRIAL ALTERATIONS CODE AND THE COMMERCIAL AND INDUSTRIAL (NEW BUILDINGS AND ADDITIONS) CODE

(Clauses 5.25 and 5A.31)

Note 1: Complying development under the Commercial and Industrial Alterations Code and the Commercial and Industrial (New Buildings and Additions) Code must comply with the requirements of the Act, the *Environmental Planning and Assessment Regulation 2000* and the conditions listed in this Schedule.

Note 2: Division 2A of Part 7 of the *Environmental Planning and Assessment Regulation 2000* specifies conditions to which certain complying development certificates are subject.

Note 3: In addition to the requirements specified for development under this Policy, adjoining owners' property rights, applicable common law and other legislative requirements for approvals, licences, permits and authorities still apply.

Note 4: If the development is in the proximity of infrastructure (including water, stormwater or sewer mains, electricity power lines and telecommunications facilities), the relevant infrastructure authority should be contacted before commencing the development.

Note 5: Under section 86A of the *Environmental Planning and Assessment Act 1979*, a complying development certificate lapses 5 years after the date endorsed on the certificate, unless the development has physically commenced on the land during that period.

PART 1 CONDITIONS APPLYING BEFORE WORKS COMMENCE

1 Protection of adjoining areas

A temporary hoarding or temporary construction site fence must be erected between the work site and adjoining lands before the works begin and must be kept in place until after the completion of the works if the works:

- (a) could cause a danger, obstruction or inconvenience to pedestrian or vehicular traffic, or
- (b) could cause damage to adjoining lands by falling objects, or
- (c) involve the enclosure of a public place or part of a public place.

Note: Clauses 2.67 and 2.68 of this Policy specify which scaffolding, hoardings and temporary construction site fences are exempt development and state the applicable standards for that development.

2 Toilet facilities

- (1) Toilet facilities must be available or provided at the work site before works begin, and must be maintained until the works are completed, at a ratio of one toilet plus one additional toilet for every 20 persons employed at the site.
- (2) Each toilet must:
 - (a) be a standard flushing toilet connected to a public sewer, or
 - (b) have an on-site effluent disposal system approved under the *Local Government Act 1993*, or
 - (c) be a temporary chemical closet approved under the *Local Government Act 1993*.

3 Waste management

- (1) A waste management plan for the work must be submitted to the principal certifying authority at least 2 days before work commences on the site
- (2) The waste management plan must:
 - (a) identify all waste (including excavation, demolition and construction waste materials) that will be generated by the work on the site, and
 - (b) identify the quantity of waste material in tonnes and cubic metres to be:
 - (i) reused on-site, and
 - (ii) recycled on-site and off-site, and
 - (iii) disposed of off-site, and
 - (c) if waste materials are to be reused or recycled on-site—specify how the waste material will be reused or recycled on-site, and

- (d) if waste materials are to be disposed of or recycled off-site—specify the contractor who will be transporting the materials and the waste facility or recycling outlet to which the materials will be taken.
- (3) A garbage receptacle must be provided at the work site before works begin and must be maintained until the works are completed.
- (4) The garbage receptacle must have a tight fitting lid and be suitable for the reception of food scraps and papers.

4 Adjoining wall dilapidation report

- (1) Before commencing any demolition or excavation works, the person having the benefit of the complying development certificate must obtain a dilapidation report on any part of a building that is within 2m of the works.
- (2) If the person preparing the report is denied access to the building for the purpose of an inspection, the report may be prepared from an external inspection.

5 Run-off and erosion controls

Run-off and erosion controls must be implemented to prevent soil erosion, water pollution or the discharge of loose sediment on the surrounding land by:

- (a) diverting uncontaminated run-off around cleared or disturbed areas, and
- (b) erecting a silt fence and providing any other necessary sediment control measures that will prevent debris escaping into drainage systems, waterways or adjoining properties, and
- (c) preventing the tracking of sediment by vehicles onto roads, and
- (d) stockpiling top soil, excavated materials, construction and landscaping supplies and debris within the lot.

PART 2 - CONDITIONS APPLYING DURING THE WORKS

Note: The *Protection of the Environment Operations Act 1997* and the *Protection of the Environment Operations (Noise Control) Regulation 2008* contain provisions relating to noise.

6 Standard hours for construction

Construction may only be carried out between 7.00 am and 6.00 pm on Monday to Friday, or between 8.00 am and 1.00 pm on Saturdays, and no construction is to be carried out at any time on a Sunday or a public holiday.

7 Works outside standard hours for construction

- (1) Work may be carried out outside the standard hours for construction if the work only generates noise that is:
 - (a) no louder than 5 dB(A) above the rating background level at any adjoining residence in accordance with the *Interim Construction Noise Guideline (ISBN 978 1 74232 217 9)* published by the Department of Environment and Climate Change NSW in July 2009, and
 - (b) no louder than the noise management levels specified in Table 3 of that guideline at other sensitive receivers.
- (2) Work may be carried out outside the standard hours for construction:
 - (a) for the delivery of materials—if prior approval has been obtained from the NSW Police Force or any other relevant public authority, or
 - (b) in an emergency, to avoid the loss of lives or property or to prevent environmental harm.

8 Compliance with plans

Works must be carried out in accordance with the plans and specifications to which the complying development certificate relates.

9 Demolition

Any demolition must be carried out in accordance with AS 2601—2001, *The demolition of structures*.

10 Maintenance of site

- (1) All materials and equipment must be stored wholly within the work site unless an approval to store them elsewhere is held.
- (2) Waste materials (including excavation, demolition and construction waste materials) must be managed on the site and then disposed of at a waste management facility.
- (3) Copies of receipts stating the following must be given to the principal certifying authority:
 - (a) the place to which waste materials were transported,
 - (b) the name of the contractor transporting the materials
 - (c) the quantity of materials transported off-site and recycled or disposed of.
- (4) Any run-off and erosion control measures required must be maintained within their operating capacity until the completion of the works to prevent debris escaping from the site into drainage systems, waterways, adjoining properties and roads.
- (5) During construction:
 - (a) all vehicles entering or leaving the site must have their loads covered, and
 - (b) all vehicles, before leaving the site, must be cleaned of dirt, sand and other materials, to avoid tracking these materials onto public roads.
- (6) At the completion of the works, the work site must be left clear of waste and debris.

11 Earthworks, retaining walls and structural support

- (1) Any earthworks (including any structural support or other related structure for the purposes of the development):
 - (a) must not cause a danger to life or property or damage to any adjoining building or structure on the lot or to any building or structure on any adjoining lot, and
 - (b) must not redirect the flow of any surface or ground water or cause sediment to be transported onto an adjoining property, and
 - (c) that is fill brought to the site—must contain only virgin excavated natural material (VENM) as defined in Part 3 of Schedule 1 to the *Protection of the Environment Operations Act 1997*, and
 - (d) that is excavated soil to be removed from the site—must be disposed of in accordance with any requirements under the *Protection of the Environment Operations (Waste) Regulation 2005*.
- (2) Any excavation must be carried out in accordance with *Excavation Work: Code of Practice* (ISBN 978-0-642-785442 [PDF] and ISBN 978-0-642-785459 [DOCX]), published in July 2012 by Safe Work Australia.

12 Drainage connections

- (1) If the work is the erection of, or an alteration or addition to, a building, the roof stormwater drainage system must be installed and connected to the drainage system before the roof is installed.
- (2) Any approval that is required for connection to the drainage system under the *Local Government Act 1993* must be held before the connection is carried out.

13 Archaeology discovered during excavation

If any object having interest due to its age or association with the past is uncovered during the course of the work:

- (a) all work must stop immediately in that area, and
- (b) the Office of Environment and Heritage must be advised of the discovery.

Note: Depending on the significance of the object uncovered, an archaeological assessment and excavation permit under the Heritage Act 1997 may be required before further the work can continue.

14 Aboriginal objects discovered during excavation

If any Aboriginal object (including evidence of habitation or remains) is discovered during the course of the work:

- (a) all excavation or disturbance of the area must stop immediately in that area, and
- (b) the Office of Environment and Heritage must be advised of the discovery in accordance with section 89A of the *National Parks and Wildlife Act 1974*.

Note: If an Aboriginal object is discovered, an Aboriginal heritage impact permit may be required under the *National Parks and Wildlife Act 1974*.

15 When a survey certificate is required

- (1) If any part of the work is the erection of a new building, or an alteration or addition to an existing building, that is located less than 3m from the lot boundary, a survey certificate must be given to the principal certifying authority:
 - (a) before any form work below the ground floor slab is completed, or
 - (b) if there is no such form work—before the concrete is poured for the ground floor slab.
- (2) The survey certificate must be prepared by a registered land surveyor and show the location of the work relative to the boundaries of the site.

PART 3 - CONDITIONS APPLYING BEFORE THE ISSUE OF AN OCCUPATION CERTIFICATE

16 Vehicular access

If the work involves the construction of a vehicular access point, the access point must be completed before the occupation certificate for the work on the site is obtained.

17 Utility services

- (1) If the work requires alteration to, or the relocation of, utility services on, or adjacent to, the lot on which the work is carried out, the work is not complete until all such works are carried out.
- (2) If the work will be the subject of a notice of requirements for water supply or sewerage services (or both) by a water utility or an entity authorised by the utility, the work must be satisfactorily completed before the occupation certificate is issued.
- (3) If the work will be the subject of a compliance certificate under section 73 of the *Sydney Water Act 1994*, the work must be satisfactorily completed before the occupation certificate is issued.

18 Mechanical ventilation systems

If the work includes a mechanical ventilation system that is a “**regulated system**” within the meaning of the *Public Health Act 2010*, the system must be notified as required by the *Public Health Regulation 2012*, before an occupation certificate (whether interim or final) for the work is issued.

19 Food businesses

If the work relates to a “**food business**” within the meaning of the *Food Act 2003*, the food business must be notified as required by that Act, or licensed as required by the *Food Regulation 2010*, before an occupation certificate (whether interim or final) for the work is issued.

20 Premises where skin penetration procedures are carried out

If the work relates to premises at which a “**skin penetration procedure**”, within the meaning of the *Public Health Act 2010*, will be carried out, the premises must be notified as required by Part 4 of the *Public Health Regulation 2012* before an occupation certificate (whether interim or final) for the work is issued.

PART 4 - OPERATIONAL REQUIREMENTS

21 Hours of operation

- (1) If there are existing conditions on a development consent applying to hours of operation, the development must not be operated outside the hours specified in those conditions.
- (2) If there are no existing conditions on a development consent applying to hours of operation, the development must not be operated outside the following hours:
 - (a) if the development involves a new use as bulky goods premises or other commercial premises—7.00 am to 10.00 pm Monday to Saturday and 7.00 am to 8.00 pm on a Sunday or a public holiday,
 - (b) if the development involves a new use as something other than a bulky goods premises or other commercial premises and adjoins or is opposite a residential lot within a residential zone or Zone RU5 Village—7.00 am to 7.00 pm Monday to Saturday and no operation on a Sunday or a public holiday,
 - (c) in any other case not referred to in paragraph (a) or (b)—7.00 am to 7.00 pm Monday to Saturday and 9.00 am to 6.00 pm on a Sunday or a public holiday.

22 Noise

- (1) The development must comply with the requirements for industrial premises contained in the Noise Policy.
- (2) Noise emitted by the development:
 - (a) must not exceed an L A (15 min) of 5dB(A) above background noise when measured at any lot boundary of the property where the development is being carried out, and
 - (b) must not cause the relevant amenity criteria in Table 2.1 in the Noise Policy to be exceeded.
- (3) In this clause, “**the Noise Policy**” means the document entitled *NSW Industrial Noise Policy (ISBN 0 7313 2715 2)* published in January 2000 by the Environment Protection Authority.

23 Lighting

- (1) All new external lighting must:
 - (a) comply with *AS 4282–1997 Control of the obtrusive effects of outdoor lighting*, and
 - (b) be mounted, screened and directed in a way that it does not create a nuisance or light spill on to buildings on adjoining lots or public places.
- (2) Lighting at vehicle access points to the development must be provided in accordance with *AS/NZS 1158 Set:2010 Lighting for roads and public spaces Set*.

24 Unobstructed driveways and parking areas

- (1) All driveways and parking areas must be unobstructed at all times.

(2) Driveways and car spaces:

- (a) must not be used for the manufacture, storage or display of goods, materials or any other equipment, and
- (b) must be used solely for vehicular access and for the parking of vehicles associated with the use of the premises.

25 Landscaped area (planting and maintenance)

- (1) Any tree or shrub that fails to establish within 2 years of the initial planting date must be replaced with the same species of tree or shrub.
- (2) All landscaped areas on the site must be maintained on an on-going basis.
