Officer comments

The proposal seeks approval for alterations and additions to a dwelling house.

The proposal has been assessed against the following provisions:

- NSW Biodiversity Conservation Act 2016
- SEPP (Resilience and Hazards) 2021 - Chapter 2 Development within the coastal environment
- Pittwater LEP 14 - Clause 7.6 Biodiversity Protection
- Pittwater 21 DCP - Clause B4.7 Pittwater Spotted Gum Forest - Endangered Ecological Community

Portions of the site are identified on the Department of Planning and Environment's Biodiversity Values Map (BV Map). Under the NSW Biodiversity Conservation Act, any removal of native vegetation from within mapped areas will trigger the Biodiversity Offset Scheme (BOS) and the requirement for a Biodiversity Development Assessment Report (BDAR).

However, the submitted plans and documentation indicate that the proposed works are located outside of the BV Map area and therefore will not trigger entry into the BOS.

The alterations and additions that are proposed will take place in highly disturbed areas of the site and therefore, impacts to native flora and fauna are unlikely.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
