RE: DA2019/0409 - 1113 / 752038 Oxford Falls Road FRENCHS FOREST NSW 2086

I would like to raise with you my objections to the proposed development on Lot 11130 Oxford Falls Road, Frenchs Forest.

- 1) The application appears to be for high density living, in what is a designated low density residential area.
- 2) The surrounding infrastructure, the road network (Myra and Barnes especially), is not designed to cope with such increased levels of traffic.
- 3) It is not an environmentally responsible development:
 - i) No access to public transport forcing increased car traffic on roads
 - ii) Loss of wildlife habitat
 - iii) Inconsistent with need to protect existing flora

With the environment becoming a growing concern among Australians, as demonstrated in recent elections, we must take actions that reflect those opinions.
