RE: DA2024/1303 - 11 / 0 Melwood Avenue FORESTVILLE NSW 2087

Reject this application! I love using the lovely green space when I visit the RSL for a meal. Why does every green space need to be turned into a building Site? You are turning this lovely green space enjoyed by thousands in the community into a block of concrete. From what I read the approval seems to be a breach of the current development rules in the area. It is very upsetting that this development is money making for the property developers
