RE: DA2019/0683 - 35 Reddall Street MANLY NSW 2095

Dear Sir or Madam,

I disagree with this development on a number of grounds. The proposal is out of keeping with the existing streetscape and exceeds acceptable residential density. The entry streets to Bower Street are already heavily trafficked particularly since the previous Catholic Church development and this development will further worsen the Eastern Hill bottleneck.

Please reject this excessive development.

Yours faithfully, Candace Lewis
