**Subject:** 337 LOWER PLATEAU RD. DA2024/0303

Further to our previous submission we wish to add the following:

Subdivision does not seem consistent with the objectives for the zoning and proximity to a water course.

The increased housing density will impact on privacy , changes to visual landscapes, noise levels and the overall character of the neighbourhood

In addition, removal of trees will reduce greenery, natural screening and effect the appeal of the area.

Regards,

G and M Holford
