**RE: DA2022/0607 - 38 Turimetta Street MONA VALE NSW 2103**

Can you please advise where the absorption trench will be positioned on the property. Also, the height of the back window in relation to the height of the back fence (privacy). Obviously I am the neighbouring back property and would like to see where the water goes as my property is lower.

Look forward to hearing from you.

Regards
