Subject: DA2022/0535

Hi,

I am writing to express concern for the documents loaded online for DA2022/0535, in particular to the document which is the "Building Assessment Referral Response" the dwelling proposed refers to the application seeking consent for Class 2-9 Buildings?

From reviewing the plans which are provided online, it looks more like a Class1A building ??

There is a comment on that same letter that the "application has been investigated" and there are "no concerns with the application"

If the class of building being assessed is not correct, what other errors are going to be made with the review of this application? What quality control is there for other aspects for the review process of this proposed development?

Regards,

Lisa Treble
