Landscape Certification - Construction Certificate

To Whom it may concern,

We confirm that the landscape design intent and scope of works have been documented in the provided landscape drawings **L-000 [A]**, **L-002 [G]**, **L-003 [G]**, **L-004 [B]** to be in general accordance with conditions provided by Adam Mitchell of Northern Beaches Council on 25th August 2021. These drawings are to be read in conjunction with the Arborist Report authored by Kyle Hill April 2018 and Architectural plans provided by Sarah Blacker.

The above noted drawings have been amended to be in general accordance and to satisfy conditions **D (a - h)**. It must be noted that condition 'i' cannot be satisfied as the provision of planting within close proximity to the dwelling is in breach of the advice provided by the project's bushfire consultants report. In lieu of planting in this space, gravel or a similar natural material will be implemented to cover the natural ground to a min depth of 75mm.

Yours faithfully,

Simon Trick, *Landscape Architect*
