RE: PEX2025/0001 - 13 Wilga Street INGLESIDE NSW 2101

Consideration should be given for the widening of Powder Works Road (at least from the development to closest arterial road) due to the size of this proposed development. Numerous vehicles will be added to this road by the development yet this area has virtually no public transport options (as admitted by the da itself). Adding further congestion to this area without addressing bush fire evacuation is unwise.
