Subject: Modification Notification- Mod2019/0132-N0470/17

Adam,

As discussed I am formally objecting to the widening of the driveway for 16 Bareena Road in a westerly direction.

My concerns are that this will impact the level of screening as the widened drive way will reduce the ability for a suitable garden bed for any screening plant to grow. The landscaping plan has palms to 3 metres designated for this portion of the boundary , which I believe is in adequate considering the size of the development

The owners of 16 Bareena rd have already displayed a disregard for screening when they refused to screen a granny flat build over looking out back yard please see attached photos, all screening in the photos has been done at my expense.
