Forestville NSW

**RE: DA2024/1303 - 11 / 0 Melwood Avenue FORESTVILLE NSW 2087**

I am very much infavour of this development. Retirement living is certainly needed in the community. All the objections which I have received in the letter box confirm my opinion that people do not like change and make excuses for this development not to proceed. This type of living is very much in demand as the population ages. The use of the bowling greens has declined considerably over the years. The new Club will be a centre for people to meet over a meal and/or cup of coffee. please do not listen to those who say they are standing for the wider community. The area needs this type of developmentand I strongly urge that this development be allowed to proceed
