RE: Mod2019/0024 - 43 Booralie Road TERREY HILLS NSW 2084

I am writing to object : the owners and builders have not followed protocol with disregard to waiting for their Modified DA being looked at by Council, who in turn need to publicise this amendment, and in turn allow the public to view these changes, discuss options and provide feedback.

The petrol pump canopy appears completed. In my opinion I believe this has been built to 6m. Was permission or certification authorised to be built to this height?

Vegetation landscaping appears inadequate with grasses, and total lack of bushes to provide not only appeal but also privacy to neighbours.

The project has shown disregard to community and Council and I object to this modified DA.
