RE: DA2020/1376 - 38 Carrington Parade CURL CURL NSW 2096

Hi
RE 38 Carrington St
I am concerned at the impact this addition will have on the views from my apartment.
The attached photograph on the environmental impacts document is an old stock photo and doesn't even show the impact of the adjoining property that has been built.
The pitch on the roof takes the height of the building even higher into the viewing zone above the 7.2m wall height.
In outcomes D7 it states the proposal will not result in loss of views but it will impact views which is not sharing the views for those behind.
I would like to stay informed about this proposal please.
Kind Regards
Deb Moore
