RE: PEX2025/0001 - 13 Wilga Street INGLESIDE NSW 2101

This proposal at Inglesode for 530 dwellings must not go ahead.
Bush fire evacuation is not feasible with so few exits available and already these roads are too busy. There is insufficient infrastructure, schools and road access on the narrow peninsula with only three main roads in and out, one of which is constantly closed due to flooding. The peninsula cannot support this level of development and population increase.
