RE: DA2023/0720 - 0 Vista Avenue BALGOWLAH HEIGHTS NSW 2093

I submit that if lights were installed at the Barena Tennis Courts, ;
a) it would provide a great opportunity for children to participate in tennis, at times not normally available to them because of other after-school commitments, and
b) further, it would allow parents and children to play together, at times generally available to both, ie outside of when the parent(s) are at work, and outside when the children are at school.
