Officer comments

The proposal has been assessed against Manly LEP Clause 6.5 (Terrestrial Biodiversity).

The submitted plans and documentation indicate that the proposed works are located within the existing development footprint and will not require removal of terrestrial native vegetation or wildlife habitat. It is assumed that impacts to aquatic biodiversity values will be assessed under the Riparian referral.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
