RE: DA2019/0997 - 50 East Esplanade MANLY NSW 2095

The proposed new loading zones on The Corso (with vehicle access from Belgrave St) shown in the Traffic & Parking report are IMO a really, really bad idea. It will destroy the beautiful, casual & pedestrian friendly feel that The Corso currently has.

If anything, things should be going the other way, that is, stopping all traffic access to The Corso from Darley Rd & Whistler St and making The Corso a beautiful traffic free zone along it's whole length.

Note: my wife and I own a unit in 8-28 The Corso. Hoping to retire there one day. :-)
