Submissions Received:	0		
Clause 4.6 Variation:	Nil		
Recommendation:	Approval		

# Estimated Cost of Works: \$449,672.00

### PROPOSED DEVELOPMENT IN DETAIL

This Development Application seeks development consent for alterations and additions to a dwelling house. Specifically, alterations and additions are sought to provide a first floor addition to an existing single storey dwelling, consisting of:

- A first floor addition providing a Master Bedor with WIR and ensuite, two bedrooms and a main bathroom.
- Ground floor internal alterations consisting of new roof tiles, gutters and downpipes, and installation of a staircase to access the first floor.

### **ASSESSMENT INTRODUCTION**

DA2024/1047 Page 1 of 22

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report)
  taking into account all relevant provisions of the Environmental Planning and Assessment Act
  1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral to relevant internal and external bodies in accordance with the Act, Regulations and relevant Development Control Plan:
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

### SUMMARY OF ASSESSMENT ISSUES

Manly Development Control Plan - 4.1.2 Height of Buildings (Incorporating Wall Height, Number of Storeys & Roof Height)

Manly Development Control Plan - 4.1.4 Setbacks (front, side and rear) and Building Separation Manly Development Control Plan - 4.1.6 Parking, Vehicular Access and Loading (Including Bicycle Facilities)

### SITE DESCRIPTION

Property Description:	Lot 106 DP 665277 , 1 Salisbury Square SEAFORTH NSW 2092				
Detailed Site Description:	The subject site consists of one (1) allotment located on the western side of Salisbury Square.				
	The site is irregular in shape with a frontage of 18.63m along Salisbury Square and a depth of 65.72m. The site has a surveyed area of 856sqm.				
	The site is located within the R2 Low Density Residential zone and accommodates a dwelling house.				
	The site slopes gently from the front (east) down towards the rear (west), with a fall across the site of approximately 4m.				
	The site contains lawn areas, garden beds, trees and vegetation. There are no details of threatened species at the subject site.				
	Detailed Description of Adjoining/Surrounding				

DA2024/1047 Page 2 of 22

Devel	opment
-------	--------

Adjoining and surrounding development is characterised by dwelling houses.

Мар:

### SITE HISTORY

The land has been used for residential purposes for an extended period of time. A search of Council's records has revealed the following relevant history:

**Development Application No. DA2019/0186** for "Alterations and additions to a dwelling house" was approved by Council on 18 June 2019. This consent has not been activated. To prevent inconsistencies between consents applying to the site (ref 4.17 & 4.63 EPAA & cl68 EPA Regulation 2021), a condtion of consent is included in the recommendations of this report requiring the applicant to surrender DA2019/0186, should works under this current application be pursued.

# **ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)**

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 Matters for Consideration	Comments
Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on "Environmental Planning Instruments" in this report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	There are no current draft environmental planning instruments.

DA2024/1047 Page 3 of 22

Section 4.15 Matters for	Comments
Consideration	
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Manly Development Control Plan applies to this proposal.
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.
Environmental Planning and	Part 4, Division 2 of the EP&A Regulation 2021 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.
Assessment Regulation 2021 (EP&A Regulation 2021)	Clause 29 of the EP&A Regulation 2021 requires the submission of a design verification certificate from the building designer at lodgement of the development application. This clause is not relevant to this application.
	Clauses 36 and 94 of the EP&A Regulation 2021 allow Council to request additional information. No additional information was requested in this case.
	Clause 61 of the EP&A Regulation 2021 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This matter has been addressed via a condition of consent.
	Clauses 62 and/or 64 of the EP&A Regulation 2021 requires the consent authority to consider the upgrading of a building (including fire safety upgrade of development). This clause is not relevant to this application.
	Clause 69 of the EP&A Regulation 2021 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This matter has been addressed via a condition of consent.
	Clause 69 of the EP&A Regulation 2021 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social	(i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Manly Development Control Plan section in this report.
and economic impacts in the locality	(ii) <b>Social Impact</b> The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.
	(iii) <b>Economic Impact</b> The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.

DA2024/1047 Page 4 of 22

Section 4.15 Matters for Consideration	Comments
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on "Notification & Submissions Received" in this report.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

### **EXISTING USE RIGHTS**

Existing Use Rights are not applicable to this application.

#### **BUSHFIRE PRONE LAND**

The site is not classified as bush fire prone land.

#### **NOTIFICATION & SUBMISSIONS RECEIVED**

The subject application has been publicly exhibited from 20/08/2024 to 03/09/2024 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2021 and the Community Participation Plan.

As a result of the public exhibition of the application Council received no submissions.

### **REFERRALS**

External Referral Body	Comments
Ausgrid - SEPP (Transport	The proposal was referred to Ausgrid who provided a response
and Infrastructure) 2021,	stating that the proposal is acceptable subject to compliance with the
s2.48	relevant Ausgrid Network Standards and SafeWork NSW Codes of
	Practice. These recommendations will be included as a condition of
	consent.

# **ENVIRONMENTAL PLANNING INSTRUMENTS (EPIS)\***

All, Environmental Planning Instruments (SEPPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans

DA2024/1047 Page 5 of 22

# (SREPs)

# SEPP (Sustainable Buildings) 2022

A BASIX certificate has been submitted with the application (see Certificate No. A1758476, issued 2 August 2024).

A condition has been included in the recommendation of this report requiring compliance with the commitments indicated in the BASIX Certificate.

## SEPP (Transport and Infrastructure) 2021

### **Ausgrid**

Section 2.48 of Chapter 2 requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

# Comment:

The proposal was referred to Ausgrid who raised no objections, subject to conditions which have been included in the recommendation of this report.

### SEPP (Resilience and Hazards) 2021

# **Chapter 4 - Remediation of Land**

Sub-section 4.6 (1)(a) of Chapter 4 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under sub-section 4.6 (1)(b) and (c) of this Chapter and the land is considered to be suitable for the residential land use.

### **Manly Local Environmental Plan 2013**

Is the development permissible?	Yes	
After consideration of the merits of the proposal, is the development consistent with:		
aims of the LEP?		
zone objectives of the LEP?	Yes	

DA2024/1047 Page 6 of 22

# **Principal Development Standards**

Standard	Requirement	Proposed	% Variation	Complies
Height of Buildings:	8.5m	8.4m	-	Yes
Floor Space Ratio	0.4:1 (342.4sqm)	0.267:1 (228.9sqm)	-	Yes

**Compliance Assessment** 

Clause	Compliance with Requirements
4.3 Height of buildings	Yes
4.4 Floor space ratio	Yes
4.5 Calculation of floor space ratio and site area	Yes
5.21 Flood planning	Yes
6.1 Acid sulfate soils	Yes
6.2 Earthworks	Yes
6.4 Stormwater management	Yes
6.8 Landslide risk	Yes
6.9 Foreshore scenic protection area	Yes
6.12 Essential services	Yes

# **Manly Development Control Plan**

# **Built Form Controls**

Built Form Controls - Site Area: 856sqm	Requirement	Proposed	% Variation	Complies
4.1.1.1 Residential Density and Dwelling Size	Dwelling Size: 117sqm (4 bedroom, 4 bathroom)	228.9sqm	-	Yes
4.1.2.1 Wall Height	North: 6.9m (based on gradient 1:15)	6.4m - 7m	Max. 1.4%	No

4.4.5 Earthworks (Excavation and Filling)	Yes	Yes
5 Special Character Areas and Sites	Yes	Yes
5.4.1 Foreshore Scenic Protection Area	Yes	Yes

### **Detailed Assessment**

### 4.1.2 Height of Buildings (Incorporating Wall Height, Number of Storeys & Roof Height)

# **Description of non-compliance**

Clause 4.1.2 Height of Buildings (Incorporating Wall Height, Number of Storeys & Roof Height) stipulates that walls are not to exceed the following heights:

- North Elevation: 6.9m (based on gradient 1:15)
- South Elevation: 6.8m (based on gradient 1:20)

The proposal presents a compliant wall height of between 6.1m and 6.8m on the southern elevation.

The northern elevation exhibits a wall height of between 6.4m - 7m, representing a maximum 1.4% (0.1m) variation to the control.

#### Merit consideration

There are no underlying objectives of this control under which to consider the merits of this variation. This clause instead relies on the objectives for the Height of Buildings at clause 4.3 in the Manly LEP 2013. An assessment against these objectives is as follows:

(a) to provide for building heights and roof forms that are consistent with the topographic landscape, prevailing building height and desired future streetscape character in the locality.

#### Comment:

The proposed building height complies with the MLEP 2013 requirement of 8.5m. The wall height breach is very minor (0.1m), with the proposed roof form and wall height considered to be consistent

DA2024/1047 Page 9 of 22

with the topographic landscape, prevailing building height and desired future streetscape character in the locality.

(b) to control the bulk and scale of buildings,

#### Comment:

The first floor addition will result in a two-storey dwelling house which is of a reasonable size and scale that is characteristic of the area. The proposal has been assessed against the requirements and underlying objectives of the MLEP and MDCP and is not considered to a propose a dwelling excessive in terms of bulk and scale.

- (c) to minimise disruption to the following—
- (i) views to nearby residential development from public spaces (including the harbour and foreshores),
- (ii) views from nearby residential development to public spaces (including the harbour and foreshores).
- (iii) views between public spaces (including the harbour and foreshores),

#### Comment:

The numerically non-compliant wall height is not anticipated to result in any adverse impacts on views to or from public and private places.

(d) to provide solar access to public and private open spaces and maintain adequate sunlight access to private open spaces and to habitable rooms of adjacent dwellings,

#### Comment:

The proposal will not cause excessive overshadowing of adjoining properties or the public domain.

(e) to ensure the height and bulk of any proposed building or structure in a recreation or environmental protection zone has regard to existing vegetation and topography and any other aspect that might conflict with bushland and surrounding land uses.

#### Comment:

The development is not within a recreation or environmental protection zone.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of MLEP 2013 / MDCP and the objectives specified in section 1.3(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

## 4.1.4 Setbacks (front, side and rear) and Building Separation

## **Description of non-compliance**

Clause 4.1.4.2 Side Setbacks and Secondary Street Frontages stipulates that the setbacks between any part of a building and the side boundary must not be less than one third of the wall height.

The first floor addition at the southern side boundary requires a setback of 2.3m (based on a 6.8m wall height). With a setback of between 2.7m and 5.4m, the proposal complies with this requirement.

The first floor addition at the northern side boundary requires a setback of 2.3m (based on a 7m wall height). With a setback of between 1.9m and 7.3m, the proposal represents a maximum 17.4% non-

DA2024/1047 Page 10 of 22

compliance with this requirement.

Clause 4.1.4.2 Side Setbacks and Secondary Street Frontages also requires that no new windows be located within 3m of side boundaries. The proposed development includes two (2) new windows within 3m of a side boundary, both on the northern elevation of the proposed first floor addition. Nonetheless, the proposed widows are considered acceptable from a visual privacy perspective, due to the corresponding rooms, positioning / size and surrounding context.

The proposed alterations and additions are compliant with the other requirements of this control, including front and rear setbacks.

### **Merit consideration**

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

Objective 1) To maintain and enhance the existing streetscape including the desired spatial proportions of the street, the street edge and the landscape character of the street.

#### Comment

The first floor addition is setback within the existing building footprint, therefore respecting the existing building setbacks. The breach is minor in nature and not considered to adversely impact the streetscape.

Objective 2) To ensure and enhance local amenity by:

- <u>providing privacy;</u>
- providing equitable access to light, sunshine and air movement; and
- <u>facilitating view sharing and maintaining adequate space between buildings to limit impacts on views and vistas from private and public spaces.</u>
- <u>defining and adding character to the streetscape including the provision of adequate space</u> <u>between buildings to create a rhythm or pattern of spaces; and</u>
- <u>facilitating safe and adequate traffic conditions including levels of visibility around corner lots at the street intersection.</u>

#### Comment:

The proposal is considered to meet the requirements of relevant clauses of the MDCP relating to amenity. The development is not considered to create unreasonable overshadowing on pubic or private spaces, or to unreasonably impact views from or to public or private spaces. The proposal is also considered to maintain existing streetscape characteristics and not to detrimentally impact on traffic conditions or the privacy of surrounding dwellings.

Objective 3) To promote flexibility in the siting of buildings.

### Comment:

Flexibility is required in the siting of alterations and additions to existing dwellings as the proposal must contend with existing site structures with existing non-compliances. The proposed alterations and additions are not expected to result in any unreasonable amenity impacts on surrounding properties. As such, flexibility is warranted, in this instance.

Objective 4) To enhance and maintain natural features by:

DA2024/1047 Page 11 of 22

- <u>accommodating planting, including deep soil zones, vegetation consolidated across sites, native vegetation and native trees;</u>
- <u>ensuring the nature of development does not unduly detract from the context of the site and particularly in relation to the nature of any adjoining Open Space lands and National Parks; and </u>
- <u>ensuring the provisions of State Environmental Planning Policy No 19 Urban Bushland are</u> satisfied.

# Comment:

The proposal is compliant with the landscape area provisions of the MDCP and maintains adequate landscaping and vegetation. The alterations and additions are located entirely within the existing building footprint, thereby not necessitating the removal of any vegetation.

Objective 5) To assist in appropriate bush fire asset protection zones.

### Comment:

The site is not classified as bush fire prone land.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of MDCP and the objectives specified in section 1.3(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

### 4.1.6 Parking, Vehicular Access and Loading (Including Bicycle Facilities)

For dwelling houses this Clause requires the provision of two (2) off-street parking spaces. The existing dwelling house provides one (1) off-street parking space and this arrangement is not proposed to be changed.

Whilst the proposal is numerically non-compliant with Schedule 3 of the MDCP 2013 that requires two (2) off-street parking spaces, the provision of an additional parking space on the subject site is not achievable within the existing context, nor expected in this instance considering the nature of the proposed alterations and additions, which do not propose any changes to parking arrangements or intensify the usage of the site. As this non-compliance is existing and unchanged, further merit assessment is not required, in this instance.

# THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

### CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

### **POLICY CONTROLS**

# Northern Beaches Section 7.12 Contributions Plan 2022

The proposal is subject to the application of Northern Beaches Section 7.12 Contributions Plan 2022.

DA2024/1047 Page 12 of 22

A monetary contribution of \$4,497 is required for the provision of new and augmented public infrastructure. The contribution is calculated as 1% of the total development cost of \$449,672.

#### CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2021;
- All relevant and draft Environmental Planning Instruments;
- Manly Local Environment Plan;
- Manly Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

# **RECOMMENDATION**

THAT Council as the consent authority grant Development Consent to DA2024/1047 for Alterations and additions to a dwelling house on land at Lot 106 DP 665277, 1 Salisbury Square, SEAFORTH, subject to the conditions printed below:

### **Terms and Reasons for Conditions**

Under section 88(1)(c) of the EP&A Regulation, the consent authority must provide the terms of all conditions and reasons for imposing the conditions other than the conditions prescribed under section 4.17(11) of the EP&A Act. The terms of the conditions and reasons are set out below.

# **GENERAL CONDITIONS**

DA2024/1047 Page 13 of 22

# 1. Approved Plans and Supporting Documentation

Development must be carried out in accordance with the following approved plans (stamped by Council) and supporting documentation, except where the conditions of this consent expressly require otherwise.

Approved Plans				
Plan Number	Revision Number	Plan Title	Drawn By	Date of Plan
2	-	Site Plan	Your Style Designer Home Additions	2 August 2024
5	-	Ground Floor Plan	Your Style Designer Home Additions	2 August 2024
6	-	First Floor Plan	Your Style Designer Home Additions	2 August 2024
7	-	Elevations	Your Style Designer Home Additions	2 August 2024
8	-	Elevations	Your Style Designer Home Additions	2 August 2024
9	-	Sections	Your Style Designer Home Additions	2 August 2024
10	-	Sections	Your Style Designer Home Additions	2 August 2024

Approved Reports and Documentation			
Document Title	Version Number	Prepared By	Date of Document
BASIX Certificate No. A1758476	-	Your Style Designer Home Additions	2 August 2024
Waste Management Plan - 1 Salisbury Square, Seaforth	-	-	-
Stormwater Plans, Job No. JB576, Sheet No. S-0.0, S-0.1, S- 1.1, S-2.1, S-2.2	А	Exact Engineering	22 August 2024

In the event of any inconsistency between the approved plans, reports and documentation, the approved plans prevail.

In the event of any inconsistency between the approved plans and a condition of this consent, the condition prevails.

Reason: To ensure all parties are aware of the approved plans and supporting documentation that applies to the development.

# 2. Compliance with Other Department, Authority or Service Requirements

The development must be carried out in compliance with all recommendations and requirements, excluding general advice, within the following:

DA2024/1047 Page 14 of 22

Other Department, Authority or Service	EDMS Reference	Dated
Ausgrid	Ausgrid Referral Response	Undated

(NOTE: For a copy of the above referenced document/s, please see Application Tracking on Council's website <a href="https://www.northernbeaches.nsw.gov.au">www.northernbeaches.nsw.gov.au</a>)

Reason: To ensure the work is carried out in accordance with the determination and the statutory requirements of other departments, authorities or bodies.

#### 3. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
  - (i) showing the name, address and telephone number of the Principal Certifier for the work, and
  - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
  - (iii) stating that unauthorised entry to the work site is prohibited.
  - Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
  - (i) in the case of work for which a principal contractor is required to be appointed:
    - A. the name and licence number of the principal contractor, and
    - B. the name of the insurer by which the work is insured under Part 6 of that Act.
  - (ii) in the case of work to be done by an owner-builder:
    - A. the name of the owner-builder, and
    - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

(e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:

DA2024/1047 Page 15 of 22

- (i) protect and support the adjoining premises from possible damage from the excavation, and
- (ii) where necessary, underpin the adjoining premises to prevent any such damage.
- (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
- (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

## 4. General Requirements

(a) Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Construction certificate plans are to be in accordance with all finished levels identified on approved plans. Notes attached to plans indicating tolerances to levels are not approved.
- (c) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (d) At all times after the submission of the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of an Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (e) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (f) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (g) Prior to the release of the Construction Certificate, payment of the following is required:

DA2024/1047 Page 16 of 22

- i) Long Service Levy Payment should be made to Service NSW (online or in person) or alternatively to Northern Beaches Council in person at a Customer Service Centre. Payment is not required where the value of the works is less than \$250,000. The Long Service Levy is calculated on 0.25% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
- ii) Section 7.11 or Section 7.12 Contributions Plan Payment must be made to Northern Beaches Council. Where the subject land to which the development is proposed is subject to either a Section 7.11 or 7.12 Contributions Plan, any contribution to which the development is liable under the respective plan that applies is to be paid to Council. The outstanding contribution will be indexed at time of payment in accordance with the relevant Contributions Plan.
- iii) Housing and Productivity Contribution Payment must be made on the NSW Planning Portal for development to which this contribution applies. The amount payable is subject to indexation at the time of payment.
- (h) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (i) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (j) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (k) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.), on the land to be developed, or within adjoining properties, shall be removed or damaged during excavation or construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (I) Prior to the commencement of any development onsite for:
  - i) Building/s that are to be erected
  - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
  - iii) Building/s that are to be demolished
  - iv) For any work/s that is to be carried out
  - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (m) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (n) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.

DA2024/1047 Page 17 of 22

- (o) Should any construction cranes be utilised on site, they are to be fitted with bird deterrents along the counterweight to discourage raptor (bird) nesting activity. Deterrents are to remain in place until cranes are dismantled. Selection of deterrent methods is to be undertaken in accordance with the recommendations of a suitably qualified ecologist.
- (p) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
  - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following:

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- (i) Swimming Pools Act 1992
- (ii) Swimming Pools Amendment Act 2009
- (iii) Swimming Pools Regulation 2018
- (iv) Australian Standard AS1926 Swimming Pool Safety
- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
- (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

# FEES / CHARGES / CONTRIBUTIONS

# 5. **Policy Controls**

Northern Beaches Section 7.12 Contributions Plan 2022

A monetary contribution of \$4,496.72 is payable to Northern Beaches Council for the provision of local infrastructure and services pursuant to section 7.12 of the Environmental Planning & Assessment Act 1979 and the Northern Beaches Section 7.12 Contributions Plan (as amended).

The monetary contribution is based on a development cost of \$449,672.00.

The total amount payable will be adjusted at the time the payment is made, in accordance with the provisions of the Northern Beaches Section 7.12 Contributions Plan (as amended).

Details demonstrating compliance, by way of written receipts issued by Council, are to be

DA2024/1047 Page 18 of 22

submitted to the Certifier prior to issue of any Construction Certificate or, if relevant, the Subdivision Certificate (whichever occurs first).

A copy of the Contributions Plan is available for inspection at 725 Pittwater Road, Dee Why or on Council's website at Northern Beaches Council - Development Contributions.

Reason: To provide for contributions in accordance with the Contribution Plan to fund the provision of new or augmented local infrastructure and services.

# 6. Security Bond

A bond (determined from cost of works) of \$2,000 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifier prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

# **BUILDING WORK – BEFORE ISSUE OF A CONSTRUCTION CERTIFICATE**

## 7. Stormwater Drainage Disposal

The stormwater drainage systems for the development are to be designed, installed and maintained in accordance with Council's Water Management for Development Policy.

All stormwater drainage systems must comply with the requirements of Council's Water Management for Development Policy. Any recommendations identified within a Geotechnical Report relevant to the development are to be incorporated into the design of the stormwater drainage system. Details demonstrating compliance from a qualified and practising Civil Engineer and where relevant a Geotechnical Engineer must be submitted to and approved by the Certifier prior to the issue of a Construction Certificate.

When the proposed discharge point for the development in this consent cannot strictly comply with the Water Management for Development Policy, the Applicant must apply to verify the proposed discharge point by gaining Council approval via a Stormwater Drainage Application. Council approval must be provided to the Certifier prior to the issue of a Construction Certificate when a Stormwater Drainage Application is required. The Stormwater Drainage Application form can be found on Council's website.

Compliance with this condition must not result in variations to the approved development or additional tree removal.

DA2024/1047 Page 19 of 22

Reason: To ensure satisfactory management of stormwater.

#### 8. Installation and Maintenance of Sediment Control

Prior to any works commencing on site, including demolition, an erosion and sediment control plan must be prepared by a suitably qualified person in accordance with the following documents and provided to the Principal Certifier:

- 1. Council's relevant development control plan,
- 2. The guidelines set out in the NSW Department of Housing manual 'Managing Urban Stormwater: Soils and Construction Certificate' (the Blue Book) (as amended from time to time), and
- 3. The 'Do it Right On-Site, Soil and Water Management for the Construction Industry' (Southern Sydney Regional Organisation of Councils and the Natural Heritage Trust) (as amended from time to time).

Techniques used for erosion and sediment control on site are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and the site is sufficiently stabilised with vegetation.

Reason: To ensure no substance other than rainwater enters the stormwater system and waterways.

### 9. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifier prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

### 10. Surrender of Consent

The applicant shall surrender to Council Development Consent No. DA2019/0186 in accordance with the requirements of the Environmental Planning and Assessment Act 1979.

Details demonstrating compliance are to be submitted to the Certifier prior to the issue of the Construction Certificate.

Reason: To prevent inconsistencies between consents applying to the site (ref 4.17 & 4.63 EPAA & cl68 EPA Regulation 2021).

# 11. Sydney Water "Tap In"

The approved plans must be submitted to the Sydney Water Tap in service, prior to works commencing, to determine whether the development will affect any Sydney Water assets and/or easements. The appropriately stamped plans must then be submitted to the Certifier demonstrating the works are in compliance with Sydney Water requirements.

Please refer to the website www.sydneywater.com.au for:

- "Tap in" details see http://www.sydneywater.com.au/tapin
- Guidelines for Building Over/Adjacent to Sydney Water Assets.

DA2024/1047 Page 20 of 22

Or telephone 13 000 TAP IN (1300 082 746).

Reason: To ensure compliance with the statutory requirements of Sydney Water.

# **DURING BUILDING WORK**

# 12. Removing, Handling and Disposing of Asbestos

Any asbestos material arising from the demolition process shall be removed and disposed of in accordance with the following requirements:

- Work Health and Safety Act;
- Work Health and Safety Regulation;
- Code of Practice for the Safe Removal of Asbestos [NOHSC:2002 (1998)];
- Guide to the Control of Asbestos Hazards in Buildings and Structures [NOHSC: 3002 (1998);
- Clause 42 of the Protection of the Environment Operations (Waste) Regulation 2005;
   and
- The demolition must be undertaken in accordance with Australian Standard AS2601 –
   The Demolition of Structures.

Reason: For the protection of the environment and human health.

### 13. Survey Certificate

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridge height are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifier when the external structure of the building is complete.

Reason: To demonstrate the proposal complies with the approved plans.

# 14. Waste Management During Development

The reuse, recycling or disposal of waste during works must be done generally in accordance with the Waste Management Plan for this development.

Details demonstrating compliance must be submitted to the Principal Certifier.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

# BEFORE ISSUE OF THE OCCUPATION CERTIFICATE

## 15. House / Building Number

House/building number is to be affixed to the building to be readily visible from the public domain.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to the issue of an Occupation Certificate.

Reason: Proper identification of buildings.
