

Dedicated Garbage Room

Barefoot Coffee Traders has been operating at Whistler St Manly for 4 ½ years. We expect our new shop at Wentworth St eventually do the similar levels of turnover . Our operation produces little waste as our business model includes only hot beverages and waffles. Empty milk bottles are taken away by our milk vendor. The majority of our trade is take away.

Based on our current waste disposal we average 1-2 x 90L bins per week. They are collected by Manly Council (please see attached invoices).

Our dedicated bin area is sufficient to store 1 x 90L bin (another if necessary). The area has sealed floors, ventilation, floor waste and hot and cold running water within 2 metres. The area is located in a room separate to food service.

Our staff manual has a section dedicated to Cleanliness and Hygiene that instructs staff, in detail, the process needed to keep the area clean and hygienic. We have a qualified FSS (Food Safety Supervisor) onsite oversee staffs' performance, maintain standards and answer questions regarding hygiene.

Michael Jordan and Steve Eden.
