RE: DA2025/0382 - 22 Stuart Street MANLY NSW 2095

Hi,

I'm your assessment of this DA, please co sided the already extremely stretched street parking in the area. As a local resident, my family, neighbours and I are constantly having to search for parking in surrounding streets, often being forced to park hundreds of metres from our homes. This is particularly difficult as many young families live in the area and coming home with babies/toddlers and groceries or other necessities of daily lives can be very tricky. Should this DA to split this block be approved, how will that contribute to the problematic shortage of street parking in the area?

Thanks!
Camille
