RE: PEX2025/0001 - 13 Wilga Street INGLESIDE NSW 2101

I object to the proposed redevelopment of the land adjoining St Sava Serbian Orthodox Church. As a parishioner whose children attend weekly language and scripture classes, my concern is that increased development so close to church facilities will compromise the privacy of small children playing, as well as impact church, school and dance classes due to potential noise complaints from future residents of these developments. The church has been there for a long time and provides a safe, pleasant green haven for children and adults alike away from the everyday hustle and bustle.
