RE: PEX2025/0001 - 13 Wilga Street INGLESIDE NSW 2101

I strongly oppose the development of this land. To squeeze this amount of residential living including the proposed 6 storey buildings is entirely out of character for the area. The environmental impacts and harm to our natives will be immense. The partial and incomplete upgrade to Mona Vale Road shows the long term devastation of the surrounding fauna and will for years to come. Gentle development with consideration to the local land is inevitable but this hammer and anvil approach is reckless and shows desperation to tick the housing shortage box regardless of negative outcomes.
