**RE: DA2019/1340 - 100 / 0 Meatworks Avenue OXFORD FALLS NSW 2100**

No way stop this building now  
No one was notified on Oxford falls road about this development  
It's disgraceful we have horses in this street and with all the new building works creates more traffic  
Too much wildlife sadly will probably die if you allow this  
This is a suburb of country lifestyle not building massively amounts of structures that will be detrimental to the suburb  
Do you people ever think  
I'm a rate payer and am totally disgusted with this council at the moment with your stupid planning and non correspondence to Home owners if we were all fully informed this would not have gone ahead  
The traffic you will be creating in this peaceful road will be come dangerous to pedestrians and horse riders  
Think before you act  
Michael Regan will not get my vote ever again.
