RE: DA2019/1340 - 100 / 0 Meatworks Avenue OXFORD FALLS NSW 2100

Please consider the impact of traffic with this submission.

Come and actually look at how busy it is. It is already like a car park trying to get in and out of dreadnought rd, meatworks rd with all the school traffic and those avoiding the hospital to get to the Wakehurst parkway.

The road OFGS is on is very narrow and completely unable to cope already with the size of the trucks that go down there especially at peak times 8-9am and 3-4pm. I feel scared and I am in my car.

If they could open the other end of meat works rd it would make all the difference but as it is now adding that many more businesses and the extra traffic that would create would be ridiculous in my opinion and unfair to parents at OFGS.

Already last year I noticed a lot more double trucks using the road constantly between 8-9am blocking traffic , almost hitting cars and busses trying to drop kids of. It's an accident waiting to happen. They also block traffic flow as the traffic is so bad on Oxford falls rd they can't merge our into the traffic completely blocking traffic well past the school.

If it does go ahead these large trucks should not be able to use the road in peak school times. It is just so dangerous and unnecessary.

Please consider the needs of the school and how this development will change traffic flow and safety of the children.
