| <b>Land to be developed (Address):</b> | Lot 54 DP 9745 , 15 Monash Crescent CLONTARF NSW 2093 |

### Reasons for referral

This application seeks consent for any application on land or land being adjoining or adjacent to any parks, reserves, beaches, or foreshore  
And as such, Council's Parks, Reserves and Foreshores officers are required to consider the likely impacts of the proposal.

### Officer comments

The development application is for alterations and additions to an existing garage and a new sea wall replacing the existing sea wall. The development site adjoins the Clontarf Middle Harbour foreshore that is located downslope of the property. The property adjoins along the side boundary with an unidentified Public Reserve or Road Reserve, which is noted as occupied by landscape hedges and other vegetation, and Council reserves the future right to seek removal of any encroachment for public safety or for any other public capital works within the reserves.

No additional physical encroachments over the site boundaries are permitted under the development application, and the final surface finish of new structures and built elements such as the new sea wall is not permitted beyond the site boundaries.

All development works must ensure that surface sediment runoff and/or erosion is controlled, managed and contained within the site boundaries and prevented from travelling across the boundary and into the Reserve and Foreshore, and conditions shall be imposed to satisfy this requirement.

It is noted that the retaining walling is proposed to be located forward of the existing alignment and is proposed along the site boundary. Visually the existing retaining walling is comprised on sandstone and brick walling with a glass balustrade on top and this presents to the public foreshore. The proposal does not significantly alter the visual appearance with the exception of the removal of the brick component that is replaced by sandstone.

Public access is not impacted by the proposed development and the development is not detrimental to the landscape character of the adjoining Reserve and Foreshore, and as such Parks, Reserves and Foreshores raise no concerns with the development proposal.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

### Parks, Reserves and Foreshores Conditions:

**CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT**

**Works on Land Owned or Managed By Council**

No works are to be carried out on land owned or managed by Council.

**Note:** Separate approval from Council is required for access driveways, paths, stairs, connections to underground utilities (stormwater, gas, sewer, electricity, telecommunications etc.) and landscaping works on land owned or managed by Council.

**Reason:** To protect the land owned or managed by Council.

**Installation and Maintenance of Sediment and Erosion Control**

Prior to commencement of works on site, sediment and erosion controls must be installed along the immediate downslope of the works area in accordance with Landcom's 'Managing Urban Stormwater: Soils and Construction' (2004).

The erosion controls shall be maintained in an operational condition until the development activities have been completed and the site fully stabilised. Sediment shall be removed from the sediment controls following each heavy or prolonged rainfall period. Techniques used for erosion and sediment control on site are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and the site is sufficiently stabilised with vegetation.

**Reason:** To protect the surrounding environment from the effects of sedimentation and erosion from the site.

**CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK****No Access Through Land Owned or Managed by Council**

Site access is not approved for delivery of materials nor construction of the development through adjacent land owned or managed by Council, without the written approval of Council.

**Reason:** Public safety, landscape amenity and tree protection.

**Storage of Materials on Land Owned or Managed by Council Prohibited**

The dumping or storage of building materials, spoil, vegetation, green waste or any other material in land owned or managed by Council is prohibited.

**Reason:** Public safety and environmental protection.

**Protection of Council's Public Assets**

Any damage to Council's public assets shall be made good by the applicant, and/or the contractor, to the satisfaction of Council.

Council's public assets include, but is not limited to, the following: road, kerb and gutters, crossovers, crossings, paths, grass verge, open space and associated elements such as furniture, recreational facilities and the like, within the meaning of the Local Government Act 1993.

Existing trees shall be protected in accordance with AS4970-2009 Protection of Trees on Development Sites, with particular reference to Section 4, with no ground intrusion into the tree protection zone and no trunk, branch nor canopy disturbance.

**Reason:** To protect and/or restore any damaged public asset.
