RE: DA2022/0971 - 0 Sydney Road MANLY NSW 2095

I support the demolition of the child care centre. There are a few mature trees in the immediate vicinity of the building which it would be great to keep, as well as the fragrant garden (which I believe is not slated for demolition). With new landscaping, a better pathway would be ideal, and any new foliage could be kept in line with the existing tropical palms, figs, ferns, etc in that valley area, to maintain bio and visual cohesion. Thanks for the opportunity to comment. I look forward to more usable space in our lovely Botanic Garden backyard :)
