Officer comments

Waste Management Comments - Additional Information Letter (submitted 12/10/2023)
Unsupported

It is entirely unacceptable that the business owner take waste from the business operations home and dispose via the domestic waste service provided by the local Council.

All waste generated by the business operations must be stored onsite and removed by a waste collection contractor from the business premises.

Waste Management Comments
Unsupported

No provision is shown on the plans for the storage of waste/bins.

Please have the applicant provide plans showing the number, size and location of waste bins stored within the property.

Bins will be required to be serviced from within the property. Bins will not be permitted to be presented on public land awaiting collection.

The proposal is therefore unsupported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Recommended Waste Conditions:

Nil.
