RE: DA2024/1303 - 11 / 0 Melwood Avenue FORESTVILLE NSW 2087

I strongly object to this proposal for so many reasons. This submission should not be approved because of the enormous negative impact that this would have on the local community.

The loss of the current family friendly facilities would be a huge disadvantage in an area with such a high number of families with young children. The increase in area dedicated to gambling and the prominent location of this would be a tragedy for so many.

The submission was not created with any consultation from members or the public, what is best for the community at large should be taken into account when considering the proposal. On this basis I request that the submission is not approved.
