Subject: Objection to Mod2017/0071-(DA2011/0446) 210 Headland Rd.

Attn: Development Assessment

>> Dear Sir

>>

>> My name is Hana Katz and I live at 6 Quirk Street, Dee Why.

>>

>> I received notification about modification at St. Luke's school Mod2017/0071 (DA2011/0446)

> 210 Headland Road Dee Why and

>> from the document couldn't figure out what the modification actually is. I went to your website to see if that had more information, but it wasn't there either.

>>

>> So I phoned and spoke to Mr Nick England, who told me, that it involves increasing the number of students at the school by 19 % (about 200 pupils)

>>

>> Before you agree to it, I wish you would come during pick up and drop off time to see what chaos there is now and I imagine with the increase in students, this will get much worse.

>>

>> Quite often our driveway gets blocked by students or parents picking up and dropping off their children, which means we can't get in or out of our carport and this causes us much inconvenience.

>>

>> Furthermore, there is no proper foot path, which means a lot of children, parents with prams and grandparents are walking on the road or on very uneven surface on the side of the road.

>>

>> If the school wishes to accommodate more students there should be more parking spaces within the school or better organised buses and drop off/pick up zones.

>>

>> On a positive note I appreciate the new Walter Gorr park. Well done.

>>

>> Thank you for considering my objections.

>>
