**RE: DA2025/1087 - 8 Forest Road WARRIEWOOD NSW 2102**

The development of a bridge through the creek will have a significant negative impact on the cultural and intrinsic value of the area while also decreasing the ecological integrity of this unique ecosystem. Development on the Northern Beaches is meant to be sustainable, however, this proposed bridge and urban development does not meet or adhere to the principles of sustainable development. Clearing of the land needed and the removal of the endangered species does not adhere to the principles of ecological integrity or inter generational equity and therefore should not be permitted.
