Do you support the proposed changes allowing trees within 3 metres of a building or structure to be removed without requiring approval?	No

Comments.

The issue is: is it likely that the tree will kill/maim/cause significant property damage. The criteria should be height AND distance. Trees in this zone should be removable. Tree cover and bio-diversity can be maintained by a default requirement to replace with a suitable indigenous species.

Do you support the proposed changes to include a further 9 tree species to the list of trees that can be removed without approval? (see full list in library)

Yes

Comments

Do you support the proposed changes to increase the minimum height of a tree that requires approval to be removed, from 5 metres to 6 metres?

Yes

comments

Any other comments on the proposed changes?
