To whom it may concern

I am writing to express my concerns in regards to the

Proposed development plan and would like to bring to your attention

The concerns of the development that may be destructive to our church community that we have peacefully for many generations enjoyed.

It is essential that our current permissible uses and parish master plan remain protected.

Future Neighbours should be made aware of and accept those existing uses so that the parish can continue to function as it always has .

Kind regards QLPFESuzana Dumic
