Officer comments

The application seeks approval for alterations and additions to an existing dwelling, including the construction of an operable roof on the ground floor and construction of a roof over the balcony on the first floor.

Council's Natural Environment Unit - Biodiversity referral team have reviewed the application for consistency against the relevant environmental legislation and controls, including:

Biodiversity Conservation Act 2016 (BC Act) State Environmental Planning Policy (Coastal Management) 2018

- Coastal Environment Area

Pittwater Local Environmental Plan (PLEP)

- 7.6 Biodiversity Protection

Pittwater Development Control Plan (PDCP)

- B4.6 Wildlife Corridors

As the proposal is located wholly within the existing footprint, and does not require the removal of prescribed trees or vegetation, nor is it likely to impact on soft open space or nearby biodiversity values, the Bushland and Biodiversity referral team find the application to be consistent against relevant environmental controls.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
