RE: PEX2025/0001 - 13 Wilga Street INGLESIDE NSW 2101

The size of this development without amendments to powderworks and Mina vale will cause further pressure in traffic. In case of a bushfire or other emergency the roads will not be able to cope with the increased population.

I am supportive of additional

Housing but... infrastructure must be improved to be able to cope with the increase.

I oppose this development in its current form.
