

## Engineering Referral Response

|                                        |                                                                                              |
|----------------------------------------|----------------------------------------------------------------------------------------------|
| <b>Application Number:</b>             | Mod2023/0650                                                                                 |
| <b>Proposed Development:</b>           | Modification of Development Consent DA2022/0196 granted for Construction of a dwelling house |
| <b>Date:</b>                           | 15/12/2023                                                                                   |
| <b>To:</b>                             | Nick Keeler                                                                                  |
| <b>Land to be developed (Address):</b> | Lot 242 DP 12749 , 17 Thompson Street SCOTLAND ISLAND NSW 2105                               |

### Reasons for referral

This application seeks consent for the following:

- New Dwellings or
- Applications that require OSD where additional impervious area exceeds 50m<sup>2</sup> or
- Alterations to existing or new driveways or
- Where proposals affect or are adjacent to Council drainage infrastructure incl. watercourses and drainage channels or
- Torrens, Stratum and Community Title Subdivisions or
- All new Commercial and Industrial and RFB Development with the exception of signage or
- Works/uses in flood affected areas

And as such, Council's development engineers are required to consider the likely impacts on drainage regimes.

### Officer comments

I have reviewed the Statement of Modification and have no objections to the proposed development subject to the retention of the existing engineering conditions of consent.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

### Recommended Engineering Conditions:

Nil.
