Balgowlah Heights NSW 2093

RE: DA2023/0720 - 0 Vista Avenue BALGOWLAH HEIGHTS NSW 2093

I would like to add my support for lights at Bareena Park tennis Club.

Our tennis club has been instrumental in promoting fitness, social interaction, and competitive spirit amongst the residents of all ages. Not only does it foster physical well-being, but it also encourages strong interpersonal relationships and a sense of community. I believe that an enhancement, particularly the installation of lights, will not only expand the usability of these facilities but will also significantly improve safety and accessibility.

Currently, the lack of proper lighting limits the usage of the tennis courts to daylight hours. Many of our community members who work during the day or prefer to exercise in the evenings are unable to utilise this wonderful asset. The installation of lights would extend the operational hours of the club, providing our residents the flexibility to play tennis at their convenience.

Moreover, well-lit spaces are proven to reduce the likelihood of accidents and enhance security. The additional lights would ensure the safety of our community members using the facilities during the evening hours and deter any potential vandalism or unwanted activities, thus creating a more secure environment for all residents.

To this end, I kindly request your support for the installation of lights at Bareena Park tennis club. This improvement will have a direct, positive impact on the community's quality of life, encourage active lifestyles, increase accessibility and inclusivity, and ensure a safer recreational environment.
