RE: DA2023/0720 - 0 Vista Avenue BALGOWLAH HEIGHTS NSW 2093

I am a local resident who grew up playing tennis at Bareena and my two children now play there themselves. This venue is such an ingrained part of the balgowlah heights community and adding lights would encourage even greater community usage. Extending the time (via the addition of lights) that the courts can be used would ensure both the survival of the club itself and allow the whole community, both members and non-members access to a recreational sport space. Local residents who may object purchased properties knowing their was a well-established tennis club and therefore, have to accept and anticipate that lights may be added at some stage to extend the usage of this prime real estate for the benefit of the whole community.
